

## Big Plans Promise Night Of Fun At Annual PTA Carnival Oct. 31

A Halloween costume parade, teenage dance and a much larger carnival area are only three of the major attractions for this year's annual PTA Carnival which will be held Oct. 31 from 5:45 to 11:45 at the Belle Glade High School athletic field, according to Urban Felsing, general carnival chairman.

Leading off the festivities will be a costume parade on Memorial Field beginning approximately at 5:45 p. m. featuring a new car parade, the high school band and various groups of Halloweeners in costume. About 10 groups have been set for senior high level to preschool children. Prizes of silver dollar for first place and ribbons for second, third and honorable mention will be given as determined by three judges for each group.

This year's carnival will feature about 30 booths or tents about doubled from last year—and there'll be cotton candy, hot dogs, hamburgers, popcorn, soft drinks, and a variety of games. Pony rides, horse rides, tractor rides and several others are tentatively set for the big Saturday night. The popular Dutch auction and the planned Club Participation.

At this point, most of the fraternal and civic clubs are scheduled. Harrington Again Seeks Trustee Job

A. R. Harrington, Canal Point, Fla., has been elected to the position of one of the three school trustees for Palm Beach County. He has 33 years of experience in the public schools and has filled a post of free jobs (without salary or expense account).

Harrington has served as Sunday School teacher 13 years; five years on the hospital board; FFA and Athletic advisor for 10 years; Lions Club President; past Master of Masonic Lodge; County Agricultural Extension Agent for 20 years; Resources Development Board director; and chairman of the Lake Okechobee Farmer's Co-op.

Speaking of his position as trustee, Harrington says, "I believe that our system of education should be properly adjusted to the needs of our community."

Also seated at the head table were Mrs. Velma Hall, worthy matron of Belle Glade Chapter No. 197 of Belle Glade. The joint meeting of the chapters was held at Belle Glade Chapter which introduced the distinguished guests and other guests present.

Misses Sue Clarke, past worthy advisor, and Linda Evans, both of the Belle Glade Rainbow Assembly entertained at the dinner with piano music.

The joint meeting of the chapters was held at Belle Glade Chapter room where decorations of mums, rums, and stalks of yellow corn and the harvest motif. Members and guests were welcomed by both worthy matrons.

The PTA chapter conducted the ritualistic opening and the business session was conducted by Belle Glade Chapter membership in both chapters was presented to the members for herself and also for the Worthy Grand Patron, A. Marjorie, of Lake Wales. Mrs. Rogers also received gifts from the chapters, and a courtesy was presented in her honor.

(Continued On Page Five)

Other Plans  
Girl Scouts will provide a baby-sitting service for harassed mothers. A book store will be set up, so all contributions of paper-back pocket novels for the purpose of putting some punch into the division's activities this season.

The organization will take an overall look at the problems facing each merchant individually and collectively. The division expects to organize a unit effort in all facets of business for the mutual benefit of all. Price said.

Store Operator  
Shoots Intruder  
A South Bay Negro was paralyzed as a result of injuries received when he was shot by a store operator who was protecting the store from a burglar.

Meeting Date Set  
For Blood Bank  
Acting Commander George Pierce of Everglades American Legion Post 20 announced this week that the blood bank committee will meet with representatives from all organizations to give out information about the blood donor day at Belle Glade Memorial Hospital, Nov. 17.

Everglades Farm Bureau  
Sets Its Annual Meeting  
Everglades Farm Bureau will hold its annual meeting and banquet at the Canal Point Community Center Oct. 27 at 7:30 p. m. and all Farm Bureau members and families are urged to attend.

There will be an interesting program from Ray W. Moseley who will discuss Workmen's Compensation and the liability insurance as it affects farmers today. Farm Bureau officers will report on the progress of the Everglades Farm Bureau during the last year.

The meeting will be highlighted by surprise speakers.

Miamians Tour Glades FCD Projects  
To Learn Over-All Water Situation  
Members of the Miami-Dade County Chamber of Commerce, press representatives and interested persons will visit the Glades, Friday while on tour of the Central and South Florida Flood Control District facilities.

At a luncheon meeting at Cottage Grill Friday, 22 Keys, members of the Miami-Dade County Chamber of Commerce, told The Herald that the Glades Flood Control District is a water conservation division of that body.

Most of the visitors were members of that committee who made the trip to gain an understanding of the FCD works in the Glades which Keys said were responsible for Dade County's predicament.

According to William Storch, Director of the Engineering Division of FCD, the tour covered an area from Tamiami Trail, port water to U. S. 57 then north to Belle Glade and Pumping Station S-2. From here the 31 touring members of the party stopped at Pumping Station 5 at 20-Mile Bend then returned to Dade County via the turnpike.

Keys explained that the civic press and chamber of commerce sought to see the actual facilities in the Glades and learn how they were related to problems in Dade County.

Since the drainage of water down North New River, Miami, reaches Dade County, where, according to Keys, seepage prevent certain lands from being developed, his organization will eventually ask for federal support to erect a drainage system at a cost of \$20 million to allow these waters to flow into Everglades National Park.

Utimate area in serious danger at this time, Keys said, is an area of some 25 square miles lying immediately south of the new New River Canal or just west of the developed portion west of Miami; and north of the 22-Mile Bend.

A water diversion plan is necessary to protect Dade County's lands from being developed, his organization will eventually ask for federal support to erect a drainage system at a cost of \$20 million to allow these waters to flow into Everglades National Park.

The Friday trip was a sequel to an aerial inspection of the same area Oct. 2, Keys said.

## Merchant Division Meets At Chamber

Belle Glade merchants are urged to attend a meeting of the merchant's division of the Belle Glade Chamber of Commerce tonight at 7:30 at the chamber building, according to L. I. Price, executive secretary. The purpose of putting some punch into the division's activities this season.

The organization will take an overall look at the problems facing each merchant individually and collectively. The division expects to organize a unit effort in all facets of business for the mutual benefit of all. Price said.

## Heavy Glades Rain Puts Dampers Over Produce Harvest

More rain in the Glades area after the initial outbreak of tropical storm Judith has put farmers and growers in a worst mind and threatened to slow down harvesting activities in the vegetable industry.

Most growers appear reluctant to describe their conditions, partially because they can't be sure for the next week or ten days about just how adverse the conditions are.

Rains which ranged from two to eight inches from Saturday evening through Wednesday inundated some fields and covered sections of many fields.

Everglades Experiment Station measured 4.53 inches of the 24-hour period which ended Sunday at 7:30 a. m. South Florida Conservancy District instruments measured five inches for the same approximate period.

At 20-Mile Bend over 11 inches were reported in readings from accurate measuring devices. The consensus of opinion among growers was that the winds and rain from Judith did little serious damage; however, some continued to look their toll and prevented the rapid drainage of fields.

Florida East Coast Railroad listed 51 cars of produce for the week, mostly corn and mixed loads of corn and radishes. Beans and pepper shipments have been from Florida distribution only or only as far north as Atlanta in some instances.

Total rail shipments for the past two weeks amounted to 63. (Continued On Page Eight)

## New Manager At Royal's Store

Leo F. Danilivt, manager of Royal's Department Store at Belle Glade, has just completed his first month in that position. He began his association with the company Sept. 22 and moved his family here Oct. 3.

Danilivt was associated with the J. J. Newberry Company for ten years and managed that firm's Windsor, Vermont store for the past five years.

A native of Taunton, Mass., he is a former Naval officer and attended Harvard University at Cambridge, Mass., and the University of North Carolina during his officer training period. He served a tour of duty in the Philippine Islands.

With his wife, Barbara, and two children, Gretchen, 7, and Leo, Jr. (Butch), 5, he resides at 417 S. E. 4th St.

## Weather From Judy Hurts Glades Sale

Glades weather conditions retarding the tropical storm Judith caused a short run of cattle at Glades Livestock Market Monday sale which was the smallest offering of the year with the smallest gross.

Monday 269 cattle returned \$22,816.77 and 39% of the offering went to slaughter.

Slaughter cattle sold steady except cows which ranged from \$10.00 to \$12.00. Steers were steady to lower except heifers which sold steady to \$12.00.

Slaughter Prices  
Steers 16.00-18.00; heifers 12.00-14.00; calves 10.00-12.00; bulls 13.00-15.00; cows 15.00-17.00. Dairy cows: 15.00-18.00.

Stocker Prices  
Steers 15.00-17.00; heifers 13.00-15.00; calves 10.00-12.00; bulls 13.00-15.00; cows 15.00-17.00. Dairy cows: 15.00-18.00.

## Work Starts Next Monday On New Belle Glade Port

Following action laid down by Port of Palm Beach commissioners Friday, Belle Glade learned that an auxiliary port facility on Rim Canal to handle freight from west coast points would be created beginning this week.

The project has been considered for over a year; however, definite study began several months ago following a meeting at Belle Glade with Port of Palm Beach officials and Belle Glade Chamber of Commerce port committee members acting on behalf of the city.

According to information released by Port Manager Joel Wilcox, a \$500 dredging project will begin next Monday to create a 600-square foot basin at a depth of 12 feet to accommodate barge traffic moving through the waterways and across Lake Okechobee's intracoastal canal to Belle Glade.

Approximately 17,000 cubic yards of material will be removed, and engineers met Monday to discuss the construction to determine where the spoil bank would be. It was agreed that the rock would be deposited immediately south of the present marina facilities where the City of Belle Glade and the Port of Palm Beach plan further improvements.

While no barge certificate has been issued by the Interstate Commerce Commission for traffic on the lake, facilities which are planned would bring about more economical methods of delivery of products for the Glades agricultural industry and eventually—other selected commodities.

Wilcox said a large volume could be possible "in a couple of months" for the delivery of foodstuffs, cattle feed, fertilizer and farm machinery.

"Belle Glade is reaching the point where the antiquated bridges and the antiquated bridges are planned to warrant the new port," Wilcox said. The Port Authority has plans for moving a warehouse to the port site on the lake.

Low cost of the dredging project was due to the fact that the project was planned to be a part of other dredging work in Rim Canal for U. S. Engineers.

## Slick Roads Claim Two More Lives

Two persons were killed and four others critically injured in a head-on collision of two automobiles on U. S. Highway 1, seven miles south of South Bay Saturday afternoon, according to the Florida Highway Patrol.

Killed instantly was Herbert E. Haase, 78, and his wife, Mrs. Louise M. Haase, both 70, died in the emergency room at Belle Glade Memorial Hospital. The couple resided at Lake Worth.

Reported in the highway patrol division at the hospital were Edmund D. King, 26; his wife, Debra Ann, 24; and their sons, Donald, 6, and Donald, 2, of West Hollywood.

Reportedly, King's car went out of control on the slick highway when he went around a curve. The car struck the Haase auto head-on.

Trooper E. L. Wood charged King with speed too great for conditions; a change from the original charge of driving on the wrong side of the road.

For the project?

Following last week's announcement by City Building Department, the estimated cost of the project is \$499,000.

Business  
The report of 33 business permits valued at \$637,500 while the year before had \$8 in \$325, 200.

Schools  
School construction amounted to \$138,800; however, the preceding year saw \$25,531 in school construction and a similar amount was not needed to meet the needs of classroom space.

During the past fiscal period \$800,544 has been spent for city improvement, most of this the of the sewerage system and treatment plant. The year before \$381,000 was spent for the same improvements to the water plant.

The report points out that 329 new houses were started in the sewerage system by Sept. 30 at a cost of \$99,250 for installation of Bell Glade citizens' sewerage system for repairs during the past 12 months. Fees for all these permits amounted to \$6,489.50, \$2,959.30 more than estimated.

## Little Hope Seen For Bridge Project

Little hope for the elimination of the antiquated bridges on S 717, West Lake Road, as requested by City of Belle Glade and the chamber of commerce, was shown this week upon receipt of a letter from the State Road Department.

Belle Glade officials learned this week on Oct. 7 letter to County Commission Chairman Lake Lyral from William Simpson, State Road board member.

"In view of the pressing needs that we have in this district," Simpson wrote, "I do not believe that we will be able to include this project during the same period."

The traffic over this bridge is very light compared to other areas. . . . In view of the above, I can not give you more encouragement for the project."

Following last week's announcement by City Building Department, the estimated cost of the project is \$499,000.

## Henry Eifers Named South Bay Mayor As Council Reorganizes For New Year

Henry Eifers was elected South Bay Mayor at the organizational meeting of the city council Oct. 15, and Earl Cobb, the other unopposed candidate in the recent municipal election, was named vice mayor, according to City Manager Lawton G. Caruthers.

The organizational meeting also saw the confirmation of Caruthers' appointment as manager-clerk as well as tax collector-assessor. Eifers was named Building Inspector in addition to his other municipal duties, and Claude Jones was reappointed city attorney.

The reorganization took place after the "old" council sat as a canvassing board to approve the results of the Oct. 6 election. Councilman Eifers and Cobb were sworn in to their new positions with Marvin Davis as elected police chief.

In other action the council received Frank Ottem of the consulting engineering firm of Rusk-South Bay issued in 1949.

et & Axon, Daytona Beach, who discussed that firm's proposed role in the city's attempts to improve their water supplies.

It was learned that the city has now obtained copies of a bond ordinance which covers revenue certificates issued for prior water improvements at Rusk-South Bay issued in 1949.

## OF LOCAL INTEREST

### FROM SOUTH BAY AND BEAN CITY

Reported by Ethel Allen. To report happenings from these two communities call WY 6-246 no later than Monday morning.

Charles, Everett, Juanita and Margaret Kirkland left Friday for their home in Dallas, Texas after spending two weeks with their grandparents Mr. and Mrs. S. J. Fisher of South Bay.

Mrs. W. M. Jeffries and daughter, Mrs. T. E. Weathers, Jr. and sons, Johnny and Tommy of Moore Haven spent Wednesday in West Palm Beach on business.

Mrs. W. C. Allen and daughter-in-law, Mrs. Clifford Allen of Belle Glade spent Tuesday in West Palm Beach on business. Mrs. A. B. Barnes had as guests on Tuesday Mr. and Mrs. Walter Burney and children, Allen, Karl, Charles and Susan of Lake Worth.

Miss Clara Ann Eifers and her grandparents Mr. and Mrs. Fredrick Smith of Okeechobee spent the weekend with Miss Eifers' parents, Mr. and Mrs. Henry Eifers.

Mrs. Edna Walker is visiting her daughter, Miss Maxine Walker, Mrs. Chester DeCarlo and Mrs. James Andrews, Jr., in Hialeah.

Mr. and Mrs. Donald Barnes and children, Harold and Den-

ise of Hialeah spent Friday with his mother, Mrs. B. Barnes and her parents Mr. and Mrs. Malcolm Thomas.

Mrs. Maude Hartline returned to her home in Delray Beach after spending a week with her son and daughter-in-law, Mr. and Mrs. Eric Hartline of South Bay.

Mr. and Mrs. W. M. Jeffries had as Sunday guests, Mr. and Mrs. B. Barnes and sons, Bob and Bill of North Palm Beach, and Mr. and Mrs. T. E. Weathers, Jr. and sons, Johnny and Tommy of Moore Haven.

W. J. Goss returned Thursday from a six months visit with relatives in Alabama and Georgia. Mr. Goss makes his winter home with his son-in-law and daughter, Mr. and Mrs. A. J. Williams, Alvin Court and daughter, Mrs. Martha Hitchcock and her son, Malcolm of Belle Glade.

For Two-Fold Purpose

## Florida Institutions Served By Glades Prison Farm

The Glades Prison Farm is in the midst of actually producing beef, fresh and canned vegetables for sale to other state institutions, for a two fold purpose: (1) To train the inmates in a special field preparatory to their return to civilian activity as useful citizens, and (2) as a financial advantage to the great expense of caring for Florida's prisoners and other State Wards.

and packed under rigid state and Federal inspection and conform to the trade grades, and items are sold to the several institutions on a 10% reduction in the market price as of the day of sale.

No prison-produced items are allowed to reach the public for competition; there's a profit to the local institution and a saving to the State Unit which buys.

All beef slaughtered at the farm are farm-raised, and grades most commonly produced are utility and standard. Some 40 to 50 head per month are slaughtered at present, with thousand-pound steers butchering out around 800 pounds, near 25 to 30,000 pounds of beef.

St. Augustine grass is the principal pasture, with some Pangloss and a bit of Carib. Twenty acres of sugar cane is kept for emergency feeding, and winter pastures are provided of Italian Rye and Clover.

Practically all beef animals at the farm are of Brahman crosses and the aim of Mr. Parson is a Brangus - 3/8 Brahman and 5/8 Angus.

A new venture at the farm takes 50 to 60 pound feeder pigs, on concrete for five months. Swill from the mess hall and from the slaughter house is prepared for the pigs until they are ready to be finished on corn produced at the farm.

A recent group, when slaughtered and weighed out, showed a daily gain of 2.7 lbs. Another venture of considerable substance in the overall industry program is dried beans - Great Northern, Pinto and Red Kidneys. Pork and beans and ranch style beans are canned from this operation.

Winter vegetables to the tune of some 19 varieties are grown and canned at the farm - corn, beans, tomatoes, and numerous leaf crops.

The growing of the vegetables are scheduled so that the canning and preparation crews are kept busy on a regular schedule.

The quarter ending on July 1st of this year saw some \$60,000 worth of industry products shipped to other state institutions as against \$1,814 for the same quarter last year.

While milk is produced only for consumption of the local prison population, it is hoped

GLADES STATE PRISON FARM'S slaughtering operation was inspected by Prison's Director H. C. Cochran, Jr., during his visit here recently with members of the legislative interim committee in prison. Seen inspecting a carcass in the prison's modern meat processing plant are Rep. S. E. Saunders, committeeman; Rep. Emmett S. Robert, Belle Glade; Superintendent D. R. Large; Cochran; and Rep. C. A. Roberts, committeeman.

PHOTO BY AVERILL  
SUPERINTENDENT OF INDUSTRIES L. P. (Hap) Parson. Glades State Prison Farm, (left) is showing the visiting interim prison committeemen dairy cattle at the farm. Superintendent D. R. Large (right) and his assistant are answering questions from Representatives S. E. Saunders and C. A. Roberts. The two members of the committee, being of the "sod" and agricultural operators, quickly saw the feasibility of the Glades institution producing milk for four or five south Florida State institutions. Okeechobee, Avon Park, Arcadia, Lantana Hospital and the Broward County Retreat. With facilities appropriated in the last legislature to be installed soon, the expansion of the herd may be accelerated. Production of the replacements and milkers for expansion is being carried out at the farm, and particular emphasis is put on sires of high production strains. It is anticipated that the Glades Prison Farm herd will be a show item within the not-too-distant future.

that before long it may be expanded to take care of several south Florida institutions which are in easy trucking distance.

## Car Stolen While Parked at Community ME church

The 1951 black two-door Chevrolet owned by Miss Karen Vudasz was stolen last Sunday night from in front of Community Methodist Church while Karen was playing the organ for evening services.

Karen had purchased the car with her own earnings from giving music lessons and had just put new seat covers in the

car, bought a new battery and new tires. The car was a necessity for Karen in her work of giving music lessons.

The Florida Highway Patrol and Belle Glade Police were notified but no trace has been found of the car (as of Tuesday).

## "B" Rams Face Lake Worth

The Belle Glade Baby Rams,

OCT. 22, 1959 THE HERALD, Belle Glade, Florida Page 3

the "B" team of Belle Glade High School, will face Lake Worth's minor squad in a grid iron contest tonight at 7 p. m. at Memorial Field.

The Ramblings, who are "babies" in title only, have an impressive 2-0-1 season record with three more contests in their cards after tonight's tussle.

Palm Beach County School Superintendent Howell Watkins reported at last week's school board meeting that the State Department of Education had given approval of the preliminary plans for Pahokee High School's industrial arts building.

Suggested changes in the plans have been referred to the architect, he said.

## RAILROAD FEATHERBEDDING:

# \$500,000,000 LOSS

TO THE NATION—INCLUDING YOU—EVERY YEAR

Featherbedding on the railroads—pay for work not done or not needed—is costing the American people the shocking total of more than \$500,000,000 a year.

You pay for it every time you shop, because featherbedding costs are hidden in the price of everything you buy.

Obsolete union work rules, involving the railroad operating employees, are responsible for this gigantic burden. Right now, for instance, these rules require every diesel locomotive to carry a fireman—even though diesels have no fires to stoke, no boilers to tend.

The forthcoming negotiations between the railroads and the unions are urgently important to the whole nation.

In asking the unions to drop these featherbedding rules, all the railroads ask for is a fair day's work for a fair day's pay.

## Project BPWRR Gets Underway

The project to register qualified Belle Glade residents to vote in the municipal elections by the Belle Glade Business and Professional Women's Club is now underway. Mrs. Rosa Nash, president, reported that more than 50 registered the first day the books were opened with City Manager C. B. Talmadge as the first new voter.

The club took over this worth while project when it was learned that an approximate 4,000 qualified voters were in the city that could vote if only registered. At the last election Sept. 15, 1951 were registered to vote and only 575 voted.

Members of the club working on the project will be deputized and work under the direction of Frank C. Anderson, city clerk and director of registration. The time and place of the next registration day by the BPW Club will be published and will be carried on at various intervals throughout the year.

To be eligible to vote a person must be 21 years of age a resident of Belle Glade for one year. During this project

**CITY MANAGER C. B. TALMADGE** becomes the first new voter to register in the Belle Glade Business and Professional Women's Club project to get more qualified voters on the city's books. Talmadge just recently became eligible to vote after coming here Oct. 1, 1958. Mrs. Palmer January, wife of the city commissioner, pins a "I Am A Registered Voter" tag on his coat as W. J. Bastomero, W. T. Grant Co. manager here; Mrs. Rosa Nash, BPW President; and Miss Rachel Rodgers, BPW Vice President; witness the action.

## Nominating Committee Elected By HD Club

Mrs. Milton Giese was hostess to the Belle Glade Home Demonstration Club at its first fall meeting of the year. At the business meeting with Mrs. Paul Kirchman, presiding, a nominating committee was elected as follows: Mrs. Della Altman, Mrs. Rawls Mackey, Mrs. W. R. Hooker.

Welcomed as new members were Mrs. Arthur Zump, Mrs.

monstration Club at its first fall meeting of the year. At the business meeting with Mrs. Paul Kirchman, presiding, a nominating committee was elected as follows: Mrs. Della Altman, Mrs. Rawls Mackey, Mrs. W. R. Hooker.

## South Bay School News

Mrs. O'Neil Walker, president of the local PTA and Mrs. Floyd Wilder attended the Child Growth and Development Workshop held at Canal Point Thursday and Mrs. Frances Bowers, third grade teacher at South Bay attended the workshop held at Belle Glade in James Hall on Thursday.

**Girls 4-H Club**  
Girls of the 4-H Club, South Bay held a bake sale Saturday in front of the Post Office and proceeds realized totaled \$22. This money will be used for the 4-H trip to the state fair in Tampa this spring.

The girls also will start with a project to replenish their treasury of selling Christmas cards and wrappings.

**Neil Walker, president**, South Bay, presided at the Junior American Red Cross meeting of the Glades area, Thursday afternoon at 3:30 at the Canal Point School. Nine members of South Bay attended accompanied by Mrs. Lucille Rudder, teacher.

Mrs. Hartley explained to the group how to take nut cups which they have made, to the

Members of the Florida Legislative Committee on Agricultural Services listen as Luther Chandler, (at microphone) Goulds grower, praises them for their work in reorganizing the state's program of agricultural services. Citations were presented on behalf of the Florida Fruit and Vegetable Assn. during its recent convention in Miami Beach to left to right, Ed Finlayson, Gainesville, President, Florida Farm Bureau; H. H. Hair Jr., Live Oak, Senator from the 17th District; W. R. Hancock, citrus grower, Groveland; Senator Tom Adams, Orange Park, Chairman of the Agricultural Services Committee; Emmett S. Roberts, Belle Glade, Representative from Palm Beach County; Andrew Duda Jr., Oviedo, grower and cattleman; J. Abney Cox, Princeton, grower; and Cushman Radebaugh, Orlando, grower and cattleman. One member of the committee—W. M. Imman, Quincy, Representative from Gadsden County—was not present for the picture.

local hospitals. South Bay JRC will deliver the nut cups to Belle Glade Memorial Hospital for Halloween. Cups to be decorated for Thanksgiving were given out and are to be turned in at the next meeting, at Palmetto on Nov. 19.

Members of the Canal Point

supplemented by personal conferences, therefore, East Lake has set aside Friday, Oct. 23, as Parent-Teacher Conference Day.

The teachers at East Lake urge parents to visit and become well acquainted with the teacher and the work of the child. The more the two parties can work together, it was explained, the more the child can be helped to grow into the habits and attitudes that are so desirable for good citizenship.

—H. J. Means

## Negro Births

Harold and Rhena McCrory, Belle Glade, announce the birth of a boy 10-10-59.

James and Tommie Faye Wilson, Belle Glade, announce the birth of a boy 10-13-59.

Willie and Elizabeth Thornton, Lake Wales, announce the birth of a son, 10-15-59.

## Negro Hospital Notes

Admitted, Mildred Grant, Lillie Mae Scott, Katie Mae Parker, Tommie Faye Wilson, Elizabeth Haynes, Annie Jenkins, Elizabeth Thornton, Cynthia Burns, Rosa Holloway, Oswald Powell, Frankie Mae Terry, Willie Pearl Brown.

Discharged: Rhena Mae McCrory, Alice Collins, Joseph Weir, Emma Morris, Lela Wilson, Betty Mae Clark, Katie Parker, Mildred Grant, Clarence Harris, Lewis Evans, Hurn, Tommie Faye Wilson, Elizabeth Thornton, Rosa Holloway, Mackey Edwards.

Remaining: Willie Pearl Brown, Frankie Mae Terry, Oswald Powell, Cynthia Burns, Annie Jenkins, Elizabeth Haynes, Lillie Mae Scott.

Blue herons have established a rookery in one of the several fresh water ponds, in St. Andrews State Park near Panama City.

The year's first meeting of the 4-H Club was held on Sept. 24 and is to be held twice monthly. Books were distributed by Mrs. Todd and election of officers was held.

Those elected were President, Alice Robertson, vice president, Carolyn Murray; Secretary and Treasurer, Ronnie Gerrey, Song and Recreational Leader, Linda Newman and Reporter, James Henderson. Mrs. Thomas and Mrs. Todd will be our leaders throughout the year.

Blue herons have established a rookery in one of the several fresh water ponds, in St. Andrews State Park near Panama City.

East Lake High School's Hawks dropped their first football game in the school's history to Stone High of Melbourne 36-0 Friday night and are now looking forward to what may be the beginning of a strong Glades rivalry, their Oct. 23 game with Lake Shore of Belle Glade.

Coch Ollie Davis said the boys presented a creditable show for the crowd at Melbourne, and the Hawks were busy this week ironing out the obvious kinks in a beginning ball club.

Stone is a much stronger club than their 1958 version, and have allowed only six points to their opposition in five contests. The Hawks scored a TD in the second quarter which was called back on an off-side infraction.

Stone ran up 272 yards passing with Tommy Scott getting 195 of those yards. Top ground gainer for the Hawks was James Brown with 68 of the 147 yards total.

Melbourne scored two touchdowns within five minutes, in the first quarter and the Hawks held them 12-0 the rest of the half. Melbourne added two more in the third on runs of 75 and 33 yards then capped their offensive action with two more in the last quarter, both on pass plays.

Lincoln High Will Visit Ft. Pierce October 23

Lincoln High of West Riviera takes on the Ft. Pierce football squad Friday night with Coach Ben McCoy's westsiders looking for their first win of the season.

West Riviera is 0-3-1 for the year with their best effort seen against Stuart Training Oct. 15. They held the Stuart squad to a 0-0 tie and piled up huge gains on the ground although they failed to score.

McCoy, formerly coach at Lake Shore High at Belle Glade, said his team is improving rapidly as they taste their first year of football. They've come a long way since taking lollipops of 25-0, 18-0 and 19-0 in previous contests.

**Mays Dumps 'Cats 19-6 Last Friday**

The bruising Rams of Mays High of Goulds knocked out a 19-6 victory over a slowing Lake Shore High team Friday at Lake Shore athletic field. After a 6-6 halftime score, the Bobcats were out-played in the final quarters.

It was the third loss of the year for the 'Cats against two wins. The Rams held decisions over Pompano and North Dade with losses to Carver and North-western of Miami.

Against a 190-lb overage on the Ram line, Coach Willie Irvin ordered a punting exhibition. Big Richard Johnson of Mays got off some of the best punting size in the Glades as his big size 13 shoe pushed for

50 and 60 yards repeatedly. As the second quarter began the Bobcats kicked from their own goal line to their 34. After a Ram drive bogged down, they kicked, but a Bobcat fumble gave Mays the ball on the Bobcat one-yard line. Bob Cunningham went over to score.

Bobcat Willie Webb covered a Mays fumble in the second half. Richard Vickers passed to Willie McDonald for a 30-yard gain, then Vickers scored on a quarterback keep.

In the third period Johnnie Fletcher passed to Frank Woods who took the five-yard toss and went 30 yards straight through the Bobcat defense. Mays players blocked a Bobcat punt on the 'Cat 42 in the fourth quarter, and on the next play Furman Gatewood galloped 41 yards to score.

For the Bobcats, Vickers and McDonald provided the team of scores, both gained 68 yards in six tries. C. C. Young with Cunningham, Gatewood and Fletcher were the main show for the winners.

Boys like Owen McKay, 6' 2" 235-pounder, and Roy Harris, 6' 3" and 220 pounds, were thorns in the Bobcat offense.

The Bobcats play at East Lake High in Pahokee Friday night.

**Ninth Grade LSHS Homeroom Officers**

Homeroom officers for the ninth grade section at Lake Shore High School are as follows. Other officers were listed previously.

9A — Prudence Thompson, president; Bessie Willford, vice pres; Mary Singletary, sec; Willie Pearson, treasurer; Fredrick, chaplain; James Jones, reporter; Betty Thompson, Curtis Pollard, Red Cross Willie Pearson, Bessie Willford, Student Council and alternate.

## Civil Service Survey Work Begins For City Of Belle Glade Employees

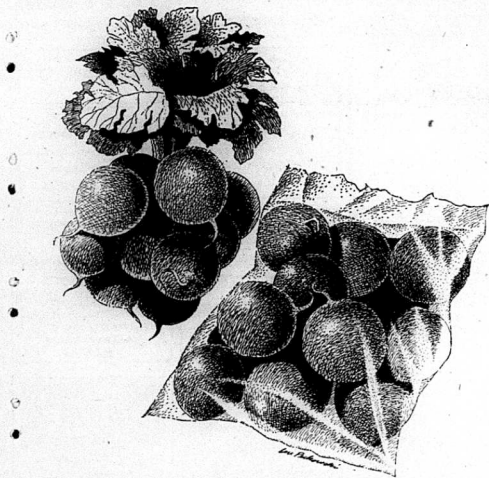

Representatives of the Bureau of Governmental Research and Service of Florida State University made a two-day visit to Belle Glade last week as the first step in the city's \$1,000 personnel survey of City employees.

Penrose B. Jackson, Director of the bureau, Dr. Juanita Gibson and John Buechner, talked with the city manager civil service board, commissioners, department heads and employees to explain the classification questionnaire which all employees fill out to be used in the study of job classifications under the city's civil service system.

Sometime in November the team will return for interviews with employees for the purpose of determining proper job ratings and salaries for all employees. The final report should

## Seacrest 14-0 Over BGHS Rams

Seacrest High School's Seahawks ran their season football mark to 3-2 and 1-1 in Suncoast Conference action at the expense of the Belle Glade Rams Friday night at the winner's field when they capitalized on some breaks and made good use of their bear-skin linemen to win 14-0.

It was the first time this year that the Rams failed to score in a ball game as they dropped to a 0-3 mark in conference action and 1-4 for the year.

On the first play from scrimmage, Bob Casagrande of Seacrest covered a Ram fumble at the Belle Glade 24. Minutes later Fullback James Ray bounced into the end zone from four yards out, and Tom Crull kicked the extra point.

Early in the game the Rams marched deep into Seahawk territory before a penalty nullified a scoring chance. Just before halftime the Rams bogged down on the host's 34.

Seacrest received in the third quarter and hauled the ball 59 yards to score with Ray going over again and Crull's toe adding the 14th point.

The piston system of Seacrest was a telling factor as the game wore on and the Rams had trouble in their own territory all night long.

In losing, the Rams still proved they have some of the better defensive minds in the conference by keeping the game from turning into a Seahawk romp.

The oldest American port at the Panama Canal is at Tampa, Florida.

## Order BGHS '60 Annuals Before Oct. 23 Please

Belle Glade folks are reminded that Belle Glade High School has set Oct. 23 as the deadline for the sale of the 1959 BGHS Annual. Anyone in the area who wants to order one for this year should call at the high school and arrange to leave a \$1.00 deposit at the office.

Solicitation of advertising for this year's book should begin in about a week, it was announced. Persons wishing to subscribe to the annual may also call Terry Tucker, WY 6-2244; Marilyn Matthews, WY 6-2518; Karen Vadas, WY 6-2647; or Genie Crisfield, WY 6-2322. Books should be available sometime in May.

## New Way Coming To Pay City's Parking Fines

City Manager C. B. Talmadge announced that 18 parking meter fine collection boxes and 1,000 of new traffic tickets had been ordered from Traf-O-Terria Company for use on the city's parking meter stands.

The system, which will be in effect soon, will enable a motorist with a parking meter ticket to pay the fine at a nearby box instead of making a trip to the police station.

The system is now being used in several Florida cities, Talmadge said.

## Department Report Show Progress Of City Business

Departmental reports for the City of Belle Glade were made available for release this week by City Manager C. B. Talmadge. Excerpts from the reports show activities of the city for the month of September.

**Police Dept.**  
There were 99 arrests, 85 convictions, three turned over to county officials and 11 dismissed for various reasons. One of two breaking and entering cases was cleared by arrest. Forty-nine cases were fingerprinted, filed and classified. Daily jail average was 28, 346 parking meter tickets issued; bond and fine money was \$2,251.57.

**Police Accident**  
Six accidents investigated. Damage to vehicles estimated at \$2,000, one person injured. Cause of accidents: two each wrong side of one way, and failure to yield right of way; one each for vehicle not under control, illegal speed.

**Game Warden**  
Nineteen complaints answered. Worked on signs and parking meter repair.

**Fire Dept.**  
Two alarms, one a pot on stove, other smoke investigation, no damage to buildings. Held one drill.

**Library**  
Added 35 adult and 11 juvenile books. Total circulation 1,462.

**Golf Course**  
Sixty-one rounds of golf played. Three square dances and one party in addition to regular civic club meetings.

**Municipal Pool**  
There were 1,093 children and 163 adults admitted to pool for revenue of \$199.40. Pool in good condition. Lake Shore Pool: Total of 190 admitted, revenue \$30.90; pool in good condition.

**Park Dept.**  
Fifteen parties in recreation building. Finished ground around sewage plant. Parkways kept in good condition.

**Street Dept.**  
Hauled 2,246 loads of muck to sewage treatment plant, 80 yards to library. Poured 560 feet curb and gutter S. E. Ave. B. Street sweeper travelled 277 miles. Vacant lots mowed.

**Water Dept.**  
Pumped 15,707,000 gallons to mains. Worked 320 man-hours. Ave. E. laid 300 ft. pipe S. E. 3rd St. Worked 400 man-hours on sewage. Meters: turned on 94, cut off 39, new service 16, meters moved 12, leaks repaired 12.

**Building-Sanitation Dept.**  
Made 264 inspections; made eight warnings for trash-pillage violations; trucks hauled 353 loads for the month. Building report carried in prior issues, 264 permits for valuations of \$245,075.173 of which were sewer connection permits.

**Tax Collector**  
Worked on transfer of properties, collection of taxes and licenses, had 18 new and transfer licenses. Attended eight sessions of court dockets; 85 fines imposed and forfeitures amounted to \$2,725.

## For Science-Minded Students B.G.H.S. Has Space Age Guidance And Curriculum

Future scientists and engineers can be assured that they'll receive proper ground work and guidance counseling at Belle Glade High School. A recent assembly program sponsored by General Motors public relations department pointed out the critical need for scientists and engineers in industry.

Through counseling, guidance and tests now being used by the high school, the adept students may lay the proper groundwork of study and then receive advice on further education through scholarships or personal-experience education.

**Testing**  
Ninth graders participate in a testing program which determines when a student is capable of a heavier work load such as that needed for college entry or the majors in science and engineering courses.

Three half-day sessions at the school last week were devoted to this testing procedure. The Iowa Educational Development tests break down a student's ability into language, math, science and social studies areas to show strength and weakness in these general phases of development.

Mental ability and Kuder preference tests at the 10th grade level and the repeated Kuder at the 11th grade level continue to reflect preference and ability of the individual. The

## BGHS Science Fair Date Will Be Set

Principal Pellon Morris at Belle Glade High School announced this week that the school's science department would be making tentative plans to conduct a science fair at the school prior to district, regional and state science fairs.

Following the regional meeting of the science fair workshop at the school Sept. 25, Morris announced that the science department would be in charge of whatever plans were formulated.

The Belle Glade workshop was sponsored by the Heart Association of Palm Beach and Martin Counties and was attended by science and mathematics teachers who heard panel discussions of ideas and plans of fairs by those teachers who had conducted them in the past.

Therefore, Belle Glade High School students have available to them the necessary curriculum and counseling to develop scientists and specialists in industrial and agricultural fields.

## B.G.H.S. Has Space Age Guidance And Curriculum

**JET PROPULSION EXHIBITS** were the subject of interest to these Belle Glade High School students during an assembly program last week. The program, called Previews of Progress, is presented to audiences by the public relations department of General Motors. Exhibitor Alex Canavan is demonstrating the principles of jet propulsion as applied to a gas turbine engine model. At right is a model replica of the earliest known jet engine. The principle was invented by a Greek named Hero about 100 B. C. Observing the demonstration are (l-r) Karen Vadas, Jim Challancin, Linda Cole, Sidney Pearce, Marilyn Matthews, Charles Lutz, Tim Bass, Claude Robertson and Doug Thompson, president of the school student council, who was in charge of the assembly program.

## Science Demonstration Was Enjoyed By Belle Glade Junior-Senior Schools

Science came alive in demonstrations and language everyone could understand when the world-famous General Motors Previews of Progress was presented to junior and senior high schools Tuesday.

Bill Hein and Alex Canavan, members of the General Motors public relations staff of Detroit, Mich., were in charge of the 45-minute programs at Lake Shore and Belle Glade High Schools with morning and afternoon sessions.

Demonstrations were seen pertaining to solar energy, synthetic rubber, jet propulsion and light sunshine as part of a program to dramatize science's key role in industrial progress under America's free economy.

More than three million students and adults view the non-commercial program each year, and many more see it on television.

GM's role in the Previews of Progress is to stimulate minds to follow science and engineering careers, and to show how society benefits from industrial research.

Hein and Canavan are one of seven teams of demonstrators operating in this country and Previews has 14 units touring Europe, South Africa, Australia and New Zealand. Total world-wide audience has now passed 23 million.

## Service Column

**Airman Third Class David D. Brandt** graduated recently from the Bomb Navigation Systems Mechanic School at Lowry Air Force Base, Colorado.

Prior to entering the Air Force earlier this year, Airman Brandt attended the Tombstone Union High School, Tombstone, Arizona, where he graduated in 1958.

His father, H. L. Brandt, lives at Belle Glade.

The further some people go in debt, the faster they run.

### HERE'S WHAT MAKES THE CORVAIR REVOLUTIONARY

**AIR COOLED**  
You never have to wait with antifreeze. Turbo-Air 6 warms up quicker, with less wear on parts. Air-plane-type heater goes to work almost instantly.

**Revolutionary Rear Engine**  
works small miracles with mileage. It's the world's first production 6 with the ultra-smooth power of horizontally opposed pistons.

**Unipack Power Team**  
Engine, transmission and drive shafts are neatly wrapped in one lightweight package. Saves lots of space, saves you more.

**Practically FLAT FLOOR**  
Corvair is America's only compact car with a virtually flat floor that gives you full 6-passenger comfort. For extra space, folding rear seats "converts" into a full 17 1/2 cu. ft. of storage.

**TRUNK'S UP FRONT**  
Lots of luggage space under the hood where it's convenient for groceries, packages.

**NEARLY 3 FEET SHORTER**  
Corvair's almost 3 inches lower, 1,300 pounds lighter, 100 cu. in. more storage space makes it a joy to drive through traffic, a pleasure to park. No need for power assists.

**4-Wheel Independent Suspension**  
Springs at each wheel cushion bumps and absorb only of each other for a ride that rivals much costlier cars.

**AND THE HAPPIEST DRIVING COMPACT CAR you ever drove!**

## SR 715 Retread Work Will Start

State Road 715 from SR 80 South of Chosen north to East Shore Pump will be retreaded with asphaltic concrete within the next few weeks, according to County Commissioner Vice Chairman Paul Rardin, who said that the State Road Department will receive bids on the job in Tallahassee on October 27.

Commissioner Rardin said the money for this job will come out of the State Road Department secondary road fund. The same road from the Woman's Club Building in Pahokee south to the East Shore pump was retreaded in last year's SRD Budget.

County projects of interest are retreading of the plant road (Airport Road) from SR 15 in Belle Glade across the northern edge of Belle Glade to the Chosen Road. Rardin said that bids were received several weeks ago on this job and Rubin Construction Company of West Palm Beach was low bidder. Work will start next week with favorable weather, Rardin said.

Two streets in Pahokee - Rardin Avenue and Barfield Highway - have been done by the Rubin concern on the same bid. Several short streets in Canal Point were also retreaded under the bid contract.

## FCD Engineer Is Civitan Speaker

Robert Taylor, senior chief engineer of the hydrology section for the Central and Southern Florida Flood Control District, will address today's luncheon meeting of the Belle Glade Civitan Club, according to program chairman J. R. Osenberg.

The unusual concern recently of the people of this area about their safety in times of flood makes his talk timely and vital to all of us in Belle Glade, Osenberg said.

"Belle Glade stands at the threshold of Central and Southern Florida's flood control and water conservation plan, and we'd like to know more about how it will affect us in future development," he added.

Taylor holds a BS degree from University of Florida after previously attending Georgia Tech. For five years he worked with the Surface Water Branch, U. S. Geological Survey, before associating with FCD in 1955.

## F. T. A. Club Is Organized

On Thursday, Oct. 15, several students of Belle Glade High School organized a Future Teachers of America Club. Mrs. Margaret Mosley, county supervisor and Miss Agnes Johnson of the Florida Educational Department at Tallahassee were the speakers.

Officers of the club are President, Susan Clarke; vice-president, Stevie Kaufman; secretary, Karen Rustin; treasurer, Clarence Throop. Sponsors are Mrs. Noble Roberts and Carl Hill.

The F. T. A. seeks to enable its members to study and identify the qualities, traits, and attitudes which are basic or related to successful teaching; to acquire an understanding of the history and objectives of our purposes and objectives of our public schools; and an appreciation of the contributions they have made to democratic society.

To secure accurate information on educational opportunities in education and the special competencies required, in order to aid in self-evaluation; to participate in promotional activities which are exploratory and developmental in nature.

**Keep Those Tax Records**  
Florida farmers will be able to redeem the additional federal gasoline tax which recently went into effect, according to Dr. C. C. Moxley, associate economist with the Florida Agricultural Extension Service.

Dr. Moxley explains that farmers will have to pay the one-cent increase on gasoline, but will have the federal tax refunded as in the past, for farm production.

"The tax increase," says the economist, "underlines the importance of keeping farm records to support refund claims."

Major Israel Vogdes, U. S. Army, was captured by the Confederates in the Battle of Santa Rosa Island. This Battlefield is centrally in Fort Pickens State Park at Pensacola, Florida.

## Florida Cattlemen Meet Oct. 27-29

A full program of talks, business and social activities is arranged for Florida Cattlemen's Association members when the group holds its annual convention here October 27-29.

Dr. J. Wayne Reitz, president of the University of Florida, and C. W. McMillan, new executive secretary of the American National Cattlemen's Association, are the two featured speakers. In addition, each of the men who have been mentioned as candidates for commissioners of agriculture will have an opportunity to speak briefly in a session which will be moderated by Farris Bryant, Ocala's gubernatorial hopeful.

Attendance of close to 500 is expected, according to Louise Gilbreath of Ocala, chairman of the convention on Thursday will include election of officers, adoption of resolutions, with a noonday adjournment.
